

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

*Noble thought produces
Noble ends and uses,
Noble hopes are part of Hope wherever she may be,
Noble thought enhances
Life and all its chances,
And noble self is noble song,—all this I learn from thee!
And I learn, moreover,
'Mid the city's strife too,
That such faint song as sweetens Death can sweeten
the singer's life too.*

(From "To David in Heaven," by Robert Buchanan.)

INTRODUCTORY.

In this catalogue we have endeavored to list only standard books in steady demand. The titles given represent but a portion of the books carried in our extensive stock. To list all would require a work so large as to be altogether too unwieldy and unserviceable, and it has therefore been the plan to omit the many books on special subjects, and books not in general demand, which, while carried in our stock, are not of the first interest to those for whom this catalogue is intended.

Information not found in this catalogue will be cheerfully and promptly furnished on request, and inquiries regarding prices, editions, etc., will receive our most careful attention. Very often we have at hand circulars and other matter giving full descriptions of books which a customer may be interested in, and these we are always glad of an opportunity to supply.

As our stock of books is probably the largest gathered under one roof anywhere in the world, exclusive of the larger libraries, there is ordinarily no delay in filling any order of average character. Foreign books that we do not carry we import promptly, and out-of-print books that we have not on hand we advertise for, free of charge. Books temporarily out of stock we can usually supply in a week or ten days after receipt of order.

As a personal examination of a book is much more satisfactory than a printed or written description, customers are urged whenever possible to visit our retail store and make their selections at first hand. Patrons from out of town are cordially invited to make the store their headquarters while in the city. A comfortable reading-room has been provided, where catalogues may be consulted, books examined, letters written, or appointments kept with friends, as may be desired.

For the benefit of those who do not realize the extent of our establishment, we call attention below to the classification of our Retail stock.

These are distinct bargains, and descriptive lists are printed at intervals, for the benefit of our customers.

One of the most brilliant figures of the Court of Louis XIV. was the beautiful and unfortunate Mme. de Montespan. At one time the acknowledged favorite of the King, her reign was but a brief one, for in a very few years she was supplanted by Mme. de Maintenon. Gifted with many accomplishments, and of most attractive nature, she was one of the most unfortunate of the women connected with that Court, ultimately dying in a convent. No adequate account of her life has of late years been available.

Rossetti in the second edition of his poems altered many sonnets of "The House of Life," in deference to what he knew to be unjust and even absurd strictness, and went so far as to exclude one of the most beautiful. In this edition the suppressed sonnet has been restored, and the reading of the first editions, 1870, followed to the letter, while the new sonnets are an exact reprint of the edition of 1881,—the first time they appeared in print.

This elaborate work, which has been years in preparation, will be recognized at once as the authority in its field. It embodies an historical sketch of much value, full descriptions, and an infallible system of discovering the exact date of any piece of old silver as well as determining its genuineness. Its treatment of hall marks is at once simple and complete; the table can be used successfully by any one. There is a chapter on noted silversmiths, with their portraits, and a chapter on heraldry. The devices of the unscrupulous dealer are fully entered into, with a description of the methods of forging plate.

- "The Artist's Way of Work" is addressed not to artists or to art students, but distinctively to the art-loving public. It tries to disclose to them in untechnical language so much of the methods by which the artist produces his effects as will enable them to enjoy and appreciate art works much more fully than ever before. It describes the processes of the sculptor, or worker in form; the processes of the painter, or worker in color, on the flat, in light and shade; the working of different mechanical trades; building (giving us architecture when treated artistically); working in wrought metal (iron, lead, silver); working in cast metal (bronze, gold, and silver); working in glass and enamel; working in baked clay (pottery, terra cotta, including tiles); working in textiles; working with the needle; and the decoration of books, both within and without.

The letters composing this volume were written by the Baroness Bonde to a friend in London during the time of the French Revolution of 1848. Their writer, one of the most accomplished and charming women of the last century, was the daughter of Sir Richard Robinson, of Rokeby, in Ireland, and during a residence in Paris of thirty years (1819-1849), knew most of the leading statesmen of the time and attained an intimate knowledge of French politics during that tumultuous period. These letters, which the Duke of Wellington and Lord Palmerston, among others, read with the deepest interest, have remained private for more than fifty years.

These letters are described in the introduction as "residual in character," being "those which Mr. James Anthony Froude mutilated or set aside." It has been deemed best, therefore, to publish them practically as Mrs. Carlyle wrote them, as "would best serve to dissipate the cloud of disparagement which Froude has succeeded in gathering around her husband's memory."

Mr. Eggleston will take up largely that period of life when he and his brother were associated in the publication of "Hearth and Home," and will also tell in his charming way, of the beginning of education in that section of the country, and the great advances that have been made to this day.

- A political study of Fox and of the situation and problems of his day. It examines his part in the great transformation in English parties, and much attention is devoted to his attitude on the social and international questions which came up for settlement during his career, to his long struggle with the king, to his views on parliamentary reform, religious toleration, and Pitt's régime of coercion, to the Irish problem of that time, and particularly to the influences of Fox on the modern development of nationalism and democracy.

- Francis Joseph, Emperor. *A Keystone of Empire. By the author of "The Martyrdom of an Empress." Illustrated from private portraits.** Crown 8vo, gilt top**net 2 25
- This is a thorough and intimately told story of the life of Emperor Francis Joseph of Austria, containing absolutely unpublished details extending over a period of more than fifty years. It covers a description of every phase of his life as Emperor and man, as well as accounts of his three brothers, who were continual sources of trouble and sorrow to him; his imperious and overbearing mother, and his gentle old father, who was his first subject for thirty years. The Emperor's romantic marriage is described, and the circumstances that marred his happiness are related from the standpoint of an intimate acquaintance with all the details. Accounts are also given of his daughters, of the Empress Elizabeth, of his grandchildren, of the mysterious family statutes of the House of Hapsburg (which have never before been published in any country), his relations to his fellow-sovereigns, covering his lavish hospitality to dethroned monarchs, and a view of the Emperor as the father of his people, giving evidence of the fact that no real ruler has been so closely in personal touch with all classes as he.

*Morley, Rt. Hon. John. The Life of Gladstone. Illustrated with portraits, facsimiles and other pictures. 3 vols., 8vo.....**net 10 50

Unquestionably the most important biography for some years, the authorized life of the greatest statesman of the nineteenth century, written, at the expense of several years of constant work, by the fittest man to treat of Mr. Gladstone, both as man and as statesman. The author was closely allied with Mr. Gladstone in politics and public affairs throughout the whole of his active life. Hardly another man has been so intimately associated with Mr. Gladstone, partly because of the very close affiliation between the political opinions of the two men. Mr. Morley has the advantage of being Mr. Gladstone's literary executor, and of having in his possession all of his subject's private papers and documents. He has likewise had at his disposal all desirable public documents, through his recent connection with the English government. To a considerable extent the three volumes form a history of England throughout the majority of the great Victorian era.

- The son of the greatest writer of romance yet produced by America, Nathaniel Hawthorne, has written in this admirable volume his remembrances of his father and his father's friends. The author's standpoint is personal throughout, which adds greatly to the charm of the narrative. Little details of Hawthorne's life are recounted which have not been available to any other biographer. The book not only tells of the life in Concord and Salem, with the writing of "The Scarlet Letter" and those other books which were important events in literature, and the friendship with Emerson and many others, but also the life of the family abroad, when Hawthorne knew Barry Cornwall, Richard Monckton Milnes, Charlotte Cushman, and many other celebrities of the time.

The writer of this biography is John Mackenzie's son, whose deep admiration for his father is tempered with fairness. There are frequent selections from letters.

Stoddard, Richard Henry. *Recollections Personal and Literary. Arranged by Ripley Hitchcock, with a preface by Edmund Clarence Stedman. Illustrated. 12mo, gilt top.	<i>**net</i> 1 50
<i>Large paper edition</i> , limited to 200 copies. Extra illustrated with rare portraits and facsimiles of letters, and reproductions of manuscripts.	<i>In press</i>
Mr. Stoddard was the last survivor of the time which has been called the Golden Age of American Letters. The Recollections which he has been engaged upon for a long time were on their way to the printer when he died in May. It is peculiarly fortunate that his reminiscences have been preserved, for they are not only delightful on the personal side and full of interesting anecdotes, but they also form in a sense an intimate literary history of our country for over fifty years.

These volumes cover a period of unusual interest and of which comparatively little is known, since it is too recent for history and too remote for personal recollection. Entertaining pictures are given, not alone of the Court and its courtiers, but of the numerous men and women whose genius, wit or eccentricity made them remarkable, such as Thackeray, Tennyson, Browning, Lady Byron, Disraeli, Harriet Martineau, Fanny Kemble, Macready, who play their parts in a drama of real life and irresistible fascination.

This is a scholarly and accurate study of the Standard Oil Company from its beginning in 1865 till its control in 1878 of ninety-five per cent of the entire oil business of the United States, and thence down to the present time. The sources of Mr. Montague's able and authentic history are the reports of official investigating commissions and committees. The story of this gigantic trust reads almost like a tale of magic and is of profound interest even to the casual reader.

Three fundamental and comprehensive problems were found to be involved in this purpose: the inherent nature of society; the manifestation of this nature in the process of development; and what, taking all the social data into account, society ought to become. By omitting either the Nature of Society, Social Evolution, or Sociological Ethics, numerous weighty questions remain unanswered, but in these three divisions, of which each occupies a realm peculiar to itself, a place is found for every legitimate inquiry respecting the science of society."

Lounsbury, T. B.	The Standard of Pronunciation in English. Post 8vo, gilt top	**net 1 20

Professor Lounsbury tells for the first time the history of the pronouncing dictionary, of which the first of the more prominent ones can be traced to two English actors, John Walker and Thomas Sheridan, the latter the father of the famous dramatist, Richard Brinsley Sheridan. Professor Lounsbury gives arguments and many examples to show that there never has been and never can be an undisputed standard of pronunciation for our language.

Very few people now have any conception of the part the steamboat navigation of the Missouri River played in the upbuilding of the West. The business of the fur trade, the intercourse of government agents with the Indians, the campaigns of the army throughout the valley, and the wild rush of gold-seekers to the mountains all depended, in greater or less degree, upon the Missouri River as a line of transportation. No other river in this country has a record to compare with it. From beginning to end it abounds in thrilling incident, and the life which it fostered was full of picturesque and even tragic details.

In this admirable volume Mr. Hough has told the story of the settlement of the West. The book is divided into four parts, describing the progress across the country; the way across the Alleghanies; the way to the Rockies; the way to the Pacific, and across the Pacific. The general history of the settlement of the West is diversified by the biography of three of its favorite sons—Daniel Boone, Davy Crockett, and Kit Carson.

- Mr. Janvier gives just due to this thrifty and energetic race in his "The Dutch Founding of New York." He explains how the Dutch West India Company was primarily intended for use as a weapon against the power of Spain, and only secondarily as a commercial experiment, the plan being to utilize this small but well-equipped company of ships in harrying Spanish vessels and sacking remote Spanish colonies. Old documents are reproduced showing the inner history of many events which subsequently were of vast importance in American development. A most picturesque and interesting narrative.

The author's main thesis is that the American Revolution was the climax of a long struggle between the prerogative and the popular parties in the Colonies. He has used the manuscript collections in Charleston as well as the ordinary printed materials. One of his chief sources is the thirty-six volumes of Colonial records recently copied in the British Public Record Office, and now preserved in the State Department at Columbia.

True experiences told in the form of a story. The narrator was a bride at the opening of the war, and tells how she followed her husband when she could, how she ran the blockade to Baltimore, returned as a nominal prisoner, etc. An attractive portrait is painted of General Stuart, and Commodore Warren also appears. There is a vivid description of the last days of deprivation in Richmond.

- While frankly a plea for Ireland, Dr. Emmet has endeavored to be impartial, and his indictment of the British Government (he draws a distinction between the English people and the English government) is supported by documentary evidence. The work is purely historical, and its chief purpose is to show to Englishmen and Irishmen alike the important work done by Ireland in the Middle Ages in behalf of culture, education, and Christianity, and to show, further, that Ireland's decline began when the English gained control of the country and took away her liberty, even to the extent of forbidding children to attend school.

- Abu'l-Ala.** *Quatrains. Selected and translated by Ameen F. Rihani.
 Illustrated. 5x8 inches**net \$1 25
 This is a volume of quite extraordinary literary interest and significance. Abu'l-Ala'l-Marr was an Arab poet and philosopher, born in 974, and antedating Omar Khayyám by half a century; yet the resemblance of these quatrains to the Tentmaker's well known poetry is too close to be explained by any theory of coincidence. It is evident that the famous Rubáiyát owes much of its form and ideas to the work of Abu. The quatrains are now for the first time translated into English.

WEBSTER'S COLLEGIATE DICTIONARY.

The latest and largest of the several abridgments of the famous International, Especially Valuable and Convenient for the Student and the Busy Man.

This recently issued work retains all the essential features of the International. It has a sizable vocabulary, complete definitions, adequate etymologies, and indicates pronunciation by familiar diacritical marks and spellings. It has over 1100 pages and 1400 illustrations. Its appendix contains vocabularies of names, rhymes, and foreign words, tables of arbitrary signs, also a *Valuable Glossary of Scottish Words and Phrases*, the latter giving, as nowhere else, the correct pronunciation of the Scottish terms, so frequently met with in literature.

STYLES OF BINDING AND PRICES.

Cloth, with Complete Reference Index	\$3 00
Sheep, with Complete Reference Index	4 00
Half Morocco, with Complete Reference Index	5 00

Just Issued, A Special Thin Paper Edition.

It is printed from the same plates as the regular edition, but on expensive thin paper. Each copy is supplied with the reference index, prices being fixed to include this feature. Its size is 8¾ x 5¾ x 1¾, the size of the regular edition being 10 x 7 x 2¾. The special edition is therefore less than half the size of the regular.

STYLES OF BINDING AND SIZES.

CAUTION! Webster's International Dictionary and each of its abridgments can be identified by a circular trade-mark (as shown here) on the front cover and by our name on the title-page. They are the latest and best. Beware of cheap reprints of the Unabridged of 1847 and of unauthorized and unreliable issues of smaller books.

But it goes into many subjects dealt with in Bible classes, and interprets phases and portions of the Bible in ways that are attractive to young people, significant on their own account, and of value to clergymen, who will find in it suggestive comments on reading the Bible in church.

The aim of this book is to assist its readers to gain a true knowledge of Christ from the inside, that is, from experience, and from what he calls "intelligent sympathy." To this end he considers and offers suggestions on "certain incidents and sayings of the Son of Man which present difficulties to thoughtful students."

"Stoicism contributed the noblest men, and the loftiest conceptions of virtue and morality that we meet with in history before the time of Paul." It is from this point of view, stated in the preface, that the author studies the founders, doctrines, and disciples of stoicism. The book includes some carefully chosen selections from the writings of Epictetus, Seneca, and Marcus Aurelius.

The same.* (*Crown Theological Library*.) Edited, with an introduction, by C. H. W. Johns. Illustrated. 12mo.net 1 50

This lecture made so much stir in the original, and brought forth so much controversy, that it has been thought well to bring out a fair and adequate translation, with Dr. Delitzsch's replies to his critics. It is a conservative statement of what the author considered to be the indisputable results of the latest research in Babylonia. It was, however, attacked by those who feared it would undermine the authority of the Bible.

While being intended to serve as an introduction merely, the student who has fully mastered the contents of this book is as far advanced in his studies as are many men who a few years ago were regarded as eminent specialists. Interspersed through its pages are brief chapters, dealing with matters of interest to the student of entomology. Such subjects as the method of collecting specimens, the history of silk-culture, the economic importance of insect-life, etc., are fully treated.

Hornaday, William T. *American Natural History, The. A Foundation of Useful Knowledge of the Higher Animals of North America. Illustrated by 220 original drawings by Beard, Rungius and Sawyer, and 100 photographs by Sanborn, Keller and Underwood, and with numerous diagrams and maps. Royal 8vo.**net 3 00

In this book Mr. Hornaday embodies the fruits of years of study, research and observation among the wild animals of North America. The scope of the work includes the five great classes, Mammals, Birds, Reptiles, Amphibians and Fishes. The author's aim is to make clear each animal's place in the great system of Nature, and to describe the animal in such a way as to make the reader personally acquainted with it. In scope and arrangement the book is scientific; the manner of presentation is non-technical and popular. It is designed to fill the unoccupied place between the "nature-books" and the zoölogies. It is thus a book for the student, the teacher, and the general reader.

- *Man's Place in the UniverseIn press

The question whether man is simply one of many similar creations throughout the universe, or the only one of his kind—and whether, as being one of many or the only reasoning being, the world does not or does center around him, has always been one foremost in the minds of the world's great thinkers. Mr. Wallace believes that man is the only one of his kind, and brings the power of his great learning and logic to prove that the universe is ordered for earthly man.
